TERRIBLE SHOOTING AFFAIR IN WELDON-A MAN KILLED.

John Merritt Shoots E. M. Hicks in the Head and Instantly Kills

INSTANTLY KILLED.

Him-Land Squabble. Special Dispatch to the NEWS. WELDON, Nov. 22 .- A shooting affair occurred here this morning in which E. M. Hicks shot L. F. Larkin in both

hands, and John Merritt shot Hicks in the head with a gun, killing him instantly. The trouble originated about the right to a piece of ground occupied by Hicks, and from which Larkin and Merritt were about moving a fence. Hicks leaves a wife and several children. As the affair will be legally investigated I will say no more about it at present.

DUBLIN, Nov. 12 .- At a meeting last night to denounce the arrest of Daly, Davitt and Killen, about :000 persons were present. Edward Dwyer Gray, the Liberal home rule member for Tip-perary, presided. Mr. Powell, and other home rule members, were present. Mr. Powell moved that the meeting call upon all Irishmen to pronounce by public meetings, their condemnation of the action of the Government which is upconstitutional and illegal, and thus show the world that Irishmen are not to be intimidated by any person. He accused the Government of entrapping Irishmen by means of paid spies. He advised Irishmen to be calm, because if they attempted to emulate the Government in any illegal action, violence or disorder, they would be doing what the butcher and destroy er of the poor Affghan and Zulu de sires them do. He said no earthly power could ever succeed against the united and determined efforts of Irishmen in their struggle for their soil— that Irishmen would show Lord Beaconsfield that they knew how to win a battle, and though they had played against a man who had loaded dice, their cause was the strongest. He said the land system was already tottering

LONDON, Nov. 22 .- A Dublin dispatch states the Government is dertermined to abandon all preliminary difficulties which might obstruct the ob-taining of loans from the Board of Public Works for improvement of estates, and in order to expedite expentures, money strictly for the employ ment of unskilled labor will immedi ately give loans to land owners and sanitary boards. They will add to the principal cost of preliminary proceedings and interest on the sum borrowed, allowing two years grace. Repayment thereof will commence at the begining of the third year. This concession only takes effect in the districts which the Government will declare.

Roard of Health Meeting. NASHVILLE, Nov. 22.-At a meeting of the National Board of Health this

That Indian Business Again. DENVER, Col., Nov. 22 -A Los Pinos special says that Ouray stated to the Commission that he is prepared to prove by the testimony of members of his tribe that secret emissaries from the Mormons have been conferring with the White River Utes, attempting to prolong hostilities by furnishing arms at points on Grand River for their use. He adds that although the information is not sufficient to convict, yet he has little doubt that he will be able to establish the connection of the Mormons with the outbreak. Ouray says that he

The People Fully aroused Over The Recent Arrests.

LONDON, Nov. 20.—At a home Rule conference in London to-night it was resolved to hold a mass meeting of the Irish inhabitants of London, and all sympathizers with Ireland, in Hyde Park, not later than the 30th inst, to protest against the arrest of Daly, Killen, and Davitt. All of the Home Rule members of Parliament resident in London will be invited to attend. The Irish organizations in Liverpool, Leeds, Newcastle, Birmingham, and Glasgow have determined to make public pro-

At meetings of the Home Rule organizations in North London, Southwark, and Greenwich to-night it was resolved to assist the promoters of the land agitation. Several subscriptions were handed in at the Home Rule offices today. Mr. Charles Stewart Parnell will be invited to attend the Hyde Park demonstration, if his engagements will permit. Mr. Parnell had deferred his isit to the United States in consequence of rumors reaching him of the intended action of the Government, and the pres ent crisis will delay his journey still further.

It is intended to issue another address to the Irish abroad, calling for money to defend all whom the Government may prosecute, and to maintain the agitation.

It is said that the prisoners Davitt, Killen, and Daly will be indicted for conspiracy as well as sedition. It is also said that Mr. Parnell's language at the land meetings will be brought before the House of Commons with a view to stiencing him in the House. The constabulary is under arms night and day in many towns in Ireland.

The speeches for which Michael Da-vitt and James Bryce Kellen were arrested in Dublin, and James Daly, editor of the Connaught Telegraph, in Casbar, were made at a meeting on the 2d inst., at Gurteen, County Siigo. The following placard has been posted in several places in the county of Mayo: To the people of Mayo—Fellow countrymen: The hour of trial has come. Your leaders are arrested. Davitt and Daly are in prisen. You know your outy, will you do it? Yes, you will. Baila is the place of meeting, and Sat-

urday is the day. Come in your thousands and show the Government and the world that your rights you will maintain. To the rescue in the mightiest of your numbers. Land and Liberty! God save the people! Balla, Balla! S turday next! Saturday next. All the London morning journals approve of the arrests except the Daily News, which makes them the occasion for a violent partisan attack. James B.

Killen is a lawyer and a lecturer on political economy It it believed in Dublin that it will be almost impossible to sustain indictments for sedition against the persons recently arrested there. last Cabinet council. The London correspondent of the Manchester Guardian says: "The Government are placed in possession of much information by landlords in connection with the rent agitation in Ireland, which, for obvious reasons, the landlords cannot make public. These statements show that many tenants who are in position to pay their rents, and are willing to pay, are kept from doing so by fear of outrage from others who cannot or will not pay. It is understood that a large number of processes of ejectment have been and will be anplied for. While it is feared that the execution of these processes will proluce some difficulty, it is believed that if they are administered only in cases where there is no want of ability to pay, and if time for payment is given to others, the agitation will be much les-

A farmer in Sligo has been severely beaten and a portion of his ears cut off because he paid his rent before it was

Another evidence of the dangerous state of feeling in Ireland and among Irish population in England has come to light. Mr. A. D. Forwood, a weilknown resident of Liverpool, has received a letter threatening his life for having denounced the policy of the Home Rulers in Ireland.

The Dublin correspondent of the Globe says: "It is belie ed that the arrests of Messrs, Davitt, Killen, and Daly are in reality due to a notice pubished recently calling on the men of Mayo to meet on Saturday to protest gainst the sudden eviction of a farmer. The document apparently hinted at resistance to the law." The Dublin Irish Times blames the Government for molesting the meaner and smaller agitators, who have nothing to loose by being made heroes. The Govern-ment's action may revive Mr. Parnell's expiring influence. The Dublin Free-man's Journal says: "The arrests are unconstitutional; an act of arbitrary power, intended to paralyze the land agitation by terrorism." Daily Express applauds the action of the Government. The news of the arrest of Mr. Davitt has caused much agitation among the large Irish population of Dundee, Scotland, whom he intended to address on Sunday, but as yet there has been no disturbance

Farragut Fleet Survivors. PHILADELPHIA, Nov. 17.-A meeting of the survivors of Admiral Farragut's fleet was held this evening at Grand Army hall, and organized an association to be called the Farragut Association. Mr. B. S. Osborn, of New York, was chosen president and Mr. William Simmons, of this city, secretary and treasurer. A large number of veterans joined the organization, the object of which is to secure a settlement of prize-money due the fleet for captures made at New Orleans in April, 1862, and decreed to them by the United States Supreme Court.

WHERE HALF OF OUR STATE TAXES GO.

What the Tarboro Southerner's Correspondent Says it Has Cost and What it Will Cost.

Tarboro Southerner Correspondence. Distance from Henry to Asheville by stage road 21 miles. Distance from Henry to Asheville by

railroad 28 miles Distance from Asheville to Paint

Rock, 44 miles. Distance from Asheville to Duck-

town 150 miles. THE "MUDCUT" SECTION. By legislative action, which it is now too late to recall, nearly one million dollars raised out of the tax payers by the medium of the sheriff will have been spent, before the next Legislature meets, to build the railroad across the mountains from Henry to Asheville (21 miles by dirt road), in addition to nearly a million of dollars more, previously spent, but raised partly from sale of State bonds. It has been an almost total waste of these two millions, since the railroad, when it gets to Asheville, will be met there by another railroad coming up from Spartanburg, being the natural outlet, and built by private enterprise without costing the tax-payers a cent. This railroad will take the great bulk of the freight and passengers, not having the dangerous and ever-sliding "mud-cut" on its line, besides being 100 miles shorter distance to the seaboard, and will leave the State without any return for its two million dollars spent in tunnelling and "mud-cutting" to get across

the mountains from Henry to Asheville. The road would doubtless have been equally profitable by remaining with its terminus at Henry and the two millions might have been spent on the public schools, or kept in the pockets of the tax-payers. Asheville has its railroad via Spartanburg anyway, and the only possible benefit derivable from this buge expenditure of the public money is to the holders of mortgage bonds on the Western N. C. railroad who will have 29 miles more of iron to seize when they foreclose on the State, as they eventually must do. It is useless to speak of the expensive engineer ing on this track from Henry to Ashe ville or of the ever-sliding, ever-yawning gulf at "Mudeut," which like the historic one in the Forum at Rome, threatens not to close till all our valua-

bles are thrown into it. THIS WASTE OF TWO MILLIONS of public money on this little distance in certain quarters had not kept them carefully concealed. For this reason, the facts in regard to the expense and propriety of going beyond Asheville should be fully and widely made known, and thoroughly discussed, that the people, who should only be taxed by their own free will and consent, can instruct their representatives in the next Legislature whether or not to re-peal the act levying taxes to pay the annual subsidy to this railroad corporation to build unproductive branches

beyond Asheville. The acts, the partial repeal of which or their modification so as to stop the raising of taxes to pay subsidies to build beyond Asheville, are chapter 106 (page 166) laws 1876-'77 and chapter 150 (page 172) laws 1874-'75. It is to be feared the passage of some of the provisions of said Acts was procured rather by the dextrous manipulations of shrewd politicians and wire-pullers living beyond the Blue Ridge, or if from this side acting in the interest of the mortgage bond-holders of the road (who are its real owners, though the State holds a large part of its worthless and unsale-able shares as a pretext to procure subsidies) than in the interest of the great body of the tax-payers who live east of the Blue Ridge while the money is to be spent west of it. East of the Blue Ridge pays (24-25) twenty-four twentyfifths of the taxes that go into the State Treasury. West of the Blue Ridgeeleven counties-pay one twenty fifth of the State taxes, not more than their proportion of the expenses of the State government so that the tax for the railroads beyond the mountains is all to be raised this side of them and sent over

The provisions in the acts in ques-

tion are PERPETUAL IN THEIR TERMS, and unless repealed the levy of taxes for these railroads must continue indefinitely, for to use the language of gentlemen from beyond the mountains who sat in the last Legislature, they "have our noses to the grindstone and intend to keep them there until all the transmontane railroads are built." Not content with taxing the tax-paying portion of the State for one unproductive railroad from Henry to Asheville, the act provides for two from Asheville on, one branch from Asheville to Paint Rock and another from Asheville to Ducktown. The act requires that when one convict, at the tax-payers' expense is put to work on the Paint Rock branch, another shall be put to work on the Ducktown branch, and of course where one dollar of the tax-payers money is spent for iron or cross ties on the Paint Rock line another dollar shall be spent for like purposes on the Duck-town line. Let us look at the two lines separately.

THE PAINT ROCK LINE. This will benefit one county only-Madison-which pays \$1,628 of State taxes, and gave Vance a Democratic strength of 856 votes. It is not neces-sary to tax the other portions of the State to build this 44 miles of difficult road, requiring heavy grading and numerous bridges, since the private enter-prise which builds the railroad from Spartanburg to Asheville is not only willing, but anxious, to carry their road on to Paint Rock to connect with the road from Moristown and thus make a through North and South line. Why not let them do it? It will save many dollar to the sore-laden tax-payers of North Carolina, and Madison county will be fully as much benefitted as if the tax-payers had built it. The railroad from Chattanooga to Bristol owns this Morristown to Paint Rock branch and would be glad to make a fivorable connection with a North and South line, such as the continuation of the Spartanburg line would be, their own main line being an East and West line. It the tax-payers, however, have to build the Western N. C. railroad on from Asheville to Paint Rock, this route being an East and West line the railroad from Chattanooga to Bristol being also an East and West line will not turn loose freight and passengers at Morristown to go over a rival line, when it can carry them over its own line to

Bristol and thence forward by a shorter route with lower grades than the Western N. C. railroad.

THE DUCKTOWN RAILROAD. This work, we have seen, is required to be built "pari passu," step by step, with the progress of the Paint Rock line. Only seven of the eleven counties lying west of the mountains are interested in this read (Transylvania

and Henderson being on the Spartan-burg railroad, and Buncombe and Madison on the continuation of that railroad, or upon the Paint Rock branch of the Western North Carolina branch of the Western North Carolina railroad if the tax-payers have to build it.) The seven counties for whose benefit this road is to be built are by no means among the most populous or wealthiest in the State. Their politicians have so vociferously, in the Legislature and in our State Democratic Conventions, termed them the "great West," and so boldly intimated that this railroad was necessary to keep them true to the party (which was a libel upon the true Democracy of that section), that it will not be amiss to give the Democratic vote they polled in the last Gubernatorial election, and the amount of taxes they pay annually into the State treasury, as per the Auditor's report for the year ending September 30, 1877:

tember 30, 1877: State Taxes. · Votes for Vance. 563 467 Voted with Clay, Gruham, 312 Macon, 2,189 1,135 667 Jackson. Swain, \$ 8,637 3,683 Total. Their "Great West" for which they

of State taxes, being about

elsmor for our millions to build them

a railroad, pays a total of 8,637 dollars

ONE-SIXTIETH (1-60) OF THE TOTAL OF THE STATE TAXES, while the single eastern county of Wake the same year paid \$27,384, or over three times as much as the whole seven counties which compose their "Great West." The whole sevel counties of this so-called "Great West" gave Vance 3,683 votes, being one thirty-fifth of the Democratic vote of the State, and a little more than the total vote cast by the one eastern county of Franklin which is so small that it sends but one member to the lower house of the General As-sembly. And it is by threats of losing an indefinite part of this 3,683 votes that the 'noses' of the tax-payers liv-ing this side of the Blue Ridge "are to be kept to the grindsions till all the trans-montane railroads are built. Let us see what this one railroad from Asheville to Ducktown, which the taxpayers must build (unless the above act is repealed) will cost. It will run through mountain chain after mountain chain, will require the cutting of numerous and costly tunnels, the build-ing of numerous and expensive bridges, will encounter, doubtless, many mud cuts (while one has been too much for our patience and pockets), much of it must be graded in solid rock, and it must surmount an aggregate grade of

OVER 7,000 FEET OF ELEVATION from Asheville to Ducktown. Compefrom Henry to Asheville could never have taken place if the facts had been known and indeed if persistent efforts that the two branches the tax payers are condemned to pay by this act to build beyond Ashevine will cost fifteen million of dollars. This is just one-tenth of the entire assessed taxable value of all the property in the State-horses, all the property in the State—norses, mules, cattle, sheep, houses, iots, lands, bonds and property of every kind. For what are we to sacrifice the tenth of all our property? For what the map. The Ducker railroad ends in a nest of mountains where it is as effectually "bottled up" as Butler was at Bermuda Hundreds. The country through which it is, to be built at

try through which it is to be built at our expense, and by THE AID OF THE SHERIFF'S HAMMER would not from the evidence of the tax list) taken under oath) ship enough to load one good train of cars a month.

The assessed taxable value of all the real estate and town property of the seven counties through which this \$10,-000,000 Ducktown branch is to be built, appears by the Auditor's report for 1877, to sum up \$1.768,093, or a little over one sixth of what the railroad through them will cost, to-wit: Cherokee. Clav. 98.839

Hay wood. 436,915 Jackson, 349,576 Macon, Swain. 157.927 \$1,768,093 And as to Madison county, for which

the torty-four mile Paint Rock branch is to be built, the value of its real estate is only \$346,155. The people along the line are not to blame for this. Na ture made their country mountainous and they cannot turn it into tertile plains. But some will say through freights can be had by going on to Chat-anoga. In reply: 1. When is to come the millions of money to tunnel and "mudcut" the fifty miles across the Smoky Mountains from Ducktown to Chattanooga? 2. If these millions are secured, the work done, its effect will be to destroy and render valueless the great sum spent to build the Paint Rock branch for a "through route." 3. When the road gets to Chattanooga it will meet there two lines, each parallel to its own, each fully equipped, and each with lower grades, a shorter route and less expensive to operate and keep up

Is it just, or wise or right to continue to tax the country east of the Bidge hundreds of thousands of dollars annually for the building of these railroads in the transmontane, which, if built and made a present to the State would require an annual appropriation to run them? No one objects to the people beyond the mountains having their railroads. But let them build them themselves. If likely to be profittable private enterprises will build them; if not likely to be profitable why should we be taxed to build them for other people's benefit? Why should we be axed to build the Paint Rock branch for the benefit of the single county of Madison, when private enterprise will build it if allowed to make it a part of the Spartanburg line? Why build a whole railroad for the one county of Madison on the other side of the mountains, with her annual payment of \$1,-628 of State taxes and her 856 Demo-cratic votes, when no aid can be extended to the large taxpaying counties on this side of the mountains to build railroads that would be profitable? The State has built the county roads for those counties by donations of public lands and appropriations of money,— fity thousand dollars to one road since the war, and by euphemistically terming said roads "turnpikes" the counties avoid the expense of keeping them up, by charging the non-resident public tolls over them. Is not this enough? WHY ALSO TAX OURSELVES TEN TO

FIFEEEN MILLIONS. of dollars to build them a profitles railroad, (parellel to two, one each side, already existing) through the seven counties constituting the Great West with their combined total of \$8,737 annual payment of State taxes and their aggregate of 3,683 Democratic votes, when at the same time all aid must be refused the Albemarle section to build a railroad out from Edenton, or to the center to build a railroad from Raleigh to Plymouth, or from Favetteville to Washington, or others that might be

As a matter of policy even, can the Democratic party in its next State Convention afford to endorse the continua tion of heavy taxation to raise subsi-

the real owners are the holders of the mortgage bonds of the roads. A presidential election year is before us. The Republican party will put forth all its efforts. Can we justify the continuance of the above expenditures, when our pponents take, as they assuredly will do, a stand against it? or should we not rather be satisfied that we have done enough in cutting a gap through the mountains to Asheville for an outlet, wisely stop there and leave the country beyond the Blue Ridge to build their own local railroad into Asheville. WE HAVE SEEN COUNTY AFTER COUNTY. Halifax, Greene an others for instance, vote down county appropriations to railroads when the railroad oid not happen to run the whole length of the nappen to run the whole length of the county, one end of the county not being willing to be taxed for the other end. Can we then expect the whole State to be willing, after a full discussion, such as we will have, to support and endorse at the polls, taxation levied to buil refroads in the extreme end of it beyond the second to be supported. of it beyond the mountains, in the poorest section of the State (according to the tax list) and exactly where railroad building is the most expensive, and that too when it so clear that no possible return can come to the sections raising the taxes? It cannot be said that the transmontane section has ever helped to build our railroads. It can be demonstrated from the Auditor's Reports that in no one year has the country beyond the Blue Ridge, taken collectively, paid more taxes into the State Treasury than the pay and mileage of their sheriffs, the cost of their insane and deaf and dumb and their portion of the State governmental expense-if that much. They have never paid any nett revenue which could be applied to the building of our railroads.

THE COUNTRY EAST OF THE BLUE RIDGE is not taxed in money to build the transmontane railroads, but they are required to convict their criminals at an expense to the respective counties ranging from \$100 to \$1,000 to each convict and then these convicts are shipped off across the mountains where their abor can bring no return to us-the expense is for us, the firofits for others. In other States the convicts are hired out so that their penitentiaries are a source of profit and the returns from the conviet labor lightens somewhat the taxation caused by the expenses of trial and conviction. Here they are convicted at the expense of the counties, transported at a heavy expense across the mountains to a remote end of the State, to build non-paying political railroads, guarded and clothed at the expense of the State, and all these expenses and the labor of the convicts virtually given away to the mortgage bondholders of the railroad and for the political promotion of aspiring gentlemen from the

mountains.

If the issue was fairly put, and it may be done in the next election, to the people of each county, "do you wish the taxes now raised out of you to pay subers, to build their railroads beyond the mountains, to remain in your pockets or devoted to educating your children instead of taking its present course, where it is hopelessly lost to you and yours, and do you prefer that the criminals convicted at your expense be retained in your own sections to build your own railroads and good county reads to reduce the expenses of convicting them, in preference to sending them. ing them, in preference to sending them as now to a remote region and taxing you besides to transport, and guard and clothe them there to labor for oth ers?" Should this question be put, does any one doubt the popular and emphatic answer? Does any one doubt that it will be put? Ought the Demo-eratic party to endorse a continuance of a system which if fully discussed and

submitted to the popular vote will not receive their support? Of course, it will not. A recent occurrence renders the consideration of this matter by the party more urgent. At the last Legislature the one law which concerned, more than all other of that session, the poorer classes who cast so large a proportion of our votes, was a bill to give increased school facilities. The bills lessening taxes for the railroad subsidies and all other taxes were all signed, but by some accident

THIS RILL WAS NOT. The speakers very unfortunately appeale from the Attorney General, and then from Judge Eure, both of whom directed them to cure the "mistake" by signing the act, till they got into the Supreme Court, which, after considerable hesitation and delay, held that they had no power to make them sign. In consequence the law passed by the Legislature in favor of the children of the poor is effectually vetoed. To some extent our opponents will succeed in ttaching some blame for the Speakers' unfortunate action in this matter upon the Democratic party. Is it prudent, then, on the back of this, to go into another campaign with a plank endorsing he subsidies to the rich railroad corpo rations?

It is true our last platform had a plank advocating judicious aid to the Western North Carolina Railroad. But is that to continue forever? Does it bind the next State Convention? Is it judicious in the light of the above facts to endorse a continuance of the subsidie after we have built to Asheville? And when private enterprise will build the Paint Rock branch and the Ducktown line is demonstrated to be a delusion and a snare?

If there should be men in the next State onvention from east of the Blue Ridge who, in spite of the above facts in hopes of securing support for their own aspirations to office from the seven counties which compose the much vaunted "Great West," are willing to sell out their manhood and our pocket books, is it not better to face them down and outvote them in the Convention than by yielding, put ourselves in the wrong and face a wronged and outraged people on the hustings and at the ballot box? These matters merit calm and earnest

consideration. There is too much dis-position on the part of men who claim to control the aforesaid "Great West," with its solid seven counties with their 3,600 Democratic votes, to use that vote as a sort of trading capital, and to bull-dose with it the rest of the State. Sectionalism is deplorable, and this

is the very worst and most odious form of sectionalism to claim for one small section the exclusive right to receive benefits, and that other sections are to bear the burdens. For the first time in many years we

must begin next year to raise taxes to pay the interest on the public debt, which even at the modest rate of four per cent. on the heavily scaled debt will amount to an addition of onethird of the sum we now raise for State purposes. It becomes us then to closely scrutinize this railroad subsidy and see if its continuance beyond Asheville cannot be dispensed with. There are those who will oppose any discussion of the matter, but the Democratic party has never committed itself to any such chloroform process of extracting money from the pockets of the people. It is certain, too, that if the matter is too questionable to bear discussion among ourselves now, it would not bear the fierce light which will beat upon the hustings next year.

"DOST THOU WELL TO BE ANGRY ?" was asked of the Hebrew prophet of old, dies for these railroad corporations, in which the State's interest is a sham and this spirit that the hardy yeomanry

living east of the Blue Ridge, and who know well what it costs to make a dollar, would learn that a Democratic State Convention had pledged their hard earnings for such questionable railroad "subsidies" and that the Republicans, the hitherto sworn enemy of the tax payers, had pledged themselves to re-lieve the burden.

There are those who contend that this

sluice of money must be kept open to keep the aforesaid "Great West," with its seven counties, democratic. This is an insult to the gallant Democracy of that section, who are as true as any in North Carolina. They cast 3,619 Democratic votes out of the 123,000 in the cratic votes out of the 123,000 in the State and their democracy is as unqestionable as any. They are Democratic from principle and, while naturally they ardently desire this railroad, their loyalty to the party is not the price of it. The sum we are asked to give as the price of their loyalty is about 75 per head per annum! for men who are as we. But, it has been replied, "We do not mean that we refer to the floating vote." Very well: calculate the floating vote as high as ten per cent of the 3,618 Democrats and we would then be paying them a subsidy

would then be paying them a subsidy of \$750 per voter annually out of public money, for democratic voters. Neither the Democratic party nor the gallant Democracy of the so-called "Great West" deserve the insult which such an argument conveys. The only ques-tion for consideration of good Democrats, and intelligent men, is whether in our present financial condition and with the interest of the State debt shortly coming down upon us, we can afford to invest the tax-payers earnings in building railroads which so evidently can not be profitable and which must sooner or later pass into the nands of the holders of the mortgage bonds. In conclusion, the amount of burdens borne by a few counties for the pay-ment of this railroad subsidy is subjoined. In calculating it, the approximate value of their convict labor, which might be hired out, but is now lost to them, is added to the amount which the counties named pay into the State Treasury in cash for their part of this

railroad subsidy:

THE SWIFT WITNESS. An Incident of Georgia Life Told by "Bill Arp."

Tom Gains was what you call a swift witness. When Tom was for a feller he was for him all over, and he was so friendly and confiding the judge didn't know what to do with him. Last court Lawyer Branhan put Tom upon the stand to prove that a drinking man couldn't remember what he did when he was drunk. Tom had taken about two drams that morning and was feeling splendid. He swore straight out

that he couldn't. The judge didn't like that. He didn't like witnesses that were so willing and familiar, and so he put a few questions to him from the bench

"Mr. Gaines, wasn't you drunk yesterday (Sunday)?" "They say I was, your honor,"
"And you don't remember it?"

"It's sorter like a dream, your honor; but I do remember I was awful sick last night.' "How are you now, Mr. Gains?"
"I am tolerable well, I thank you, udge; how do you do, yourself? Tom bowed humbly, as he thought the

judge was kindly inquiring after his When the sheriff had quieted the general hilarity, the judge said: "Mr. Gains, you were drunk yester-day, which was Sunday. Now where

day, which was Sunday. Now where did you find your whisky?"

"In the jug, judge—right in the jug."

"Well, sir, where was the jug?"

"Under the fodder stack, judge; I always keeps it there or in the shuck pen, and if your honor ever passes that way, it's a free thing to—"

"Mr. Gains, you can retire sir. I be-lieve you are the same man who, about thirty years ag, testified in this court house that Jim Wilkins bit his own ear off."

"They say I did, judge, but you know I was drunk, and of course I don't remember it. You was a defendin' Jack Boozer, for bitin off Jim Wilkins' ear, and you told me that in the scrimmage Jack shoved Jim up against the sharp edge of the door and the door cut it off; but you see, judge, I got drunk and forgot what you told me, and I 'spose I did swear that Williams bit his ear off him-elf, and it wasn't so unreasonable nohow, for he had the awfulest mouth that ever was seed—didn't he, judge?" "Mr. Gains, I told you to sit down,

sir. Mr. Sheriff, give me the names of those gentlemen who are so hilarous. I'll see if I can't stop their me riment. Brother Branham, put up your next witness.'

"worse than slavery."

It is stated that the society is devoting its attention to the matter of organizing the westward movement and giving it proper and intelligent direction. The formation is conveyed that it will require "ready money in considerable quantity" to carry out the objects of the society, and this the people of the North are no. ified that they are expected to provide. It is stated that a national advisory committee has been formed, with Senator Windom as chairman, and composed of leading citizens of the va-rious States and Territories. From what has already transpired of the obbeen prominent in fomenting the ex-odus, it can well be surmised that the "proper and intelligent direction" which is spoken of will be a "direction" to localities where political aims are to be subserved—the State of Indiana, for instance. Among the officers of the society through whom whatever contributions that are recived from the N rth will be dispensed are several persons, both white and colored, who have long been known as noted partisans of the

Republican party.

CALLS AT THE WHITE HOUSE.

The White House was overrun with people to-day, many of the callers being strangers, drawn here to witness the Thomas memorial services. The President gave audience to quite a large proportion of those who called, but many had to be satisfied with looking at the East room and other apartments which are open to public inspection. Several members of Congress, numerous volunteer officers in the late war, and two or three delegations were included in those who saw the Presi-

with the Thomas procession vesterday was the fact that not a single voluntee. military organization from any point North of Mason and Dixon's line participated. All the military display outside of the regular army was furnished by organizations from the South. Another point upon which comment is made is the remarkably partian tons of portions of Mr. Stanley Matthews oration. In political circles it is said that Mr. Matthews was speaking more to the Ohio Legislature han those who were present.

THE NICARAGUAN CANAL.

Cabinet officers are of the opinion that there is very little in the talk which comes here of large European subscriptions to the Nicarauguan canal enterprise, based upon Gen. Grant's assuming the presidency of the company to be formed. They are of the opinion that the statements to this effect are mostly manufactured in this country and disseminated for political reasons. Admiral Ammen, who is exceedingly zealous in this matter, is, however, very confident that foreign capitalists will subscribe heavily to the stock it Grant's connection with the project is assured

WHERE HALF OUR STATE TAXES The NEWs is emphatically a newspa per and as such it furnishes its readers with the latest and most interesting information. It has striven always to lay before them that which would be most likely to be in request among the reading public. It copies elsewhere to-day an article with the above heading from

our excellent contemporary the Tarboro S. utherner. The article is one that will attract the attention of the public-The News, however, is something more than a mere newspaper. It is a Democratic paper, warmly concerned for the success of the great party, on the triumph of whose principles depends, as it believes, so largely the welfare of

the American people. We shall have a heated Presidential contest next year. Party harmony is ssential to our success at the polls. ome time great doubts as to the rey of these rairoad appropria-

large sections of the State. Now nat the work is about to reach Asheville and simultaneously we are about to assume for the first time since the war the payment of interest on the State debt the objections to arther aid to railroad building in the mountains receives an added impetus.

Harmony can best be restored and kept in the party hereafter a non-party question. This should satisfy both sides. It will remove the incipient cause of danger and avoid a possible issue at the polls, Good Democrats can well take sides either for or against the appropriation. No great principle is at stake. It is a mere question of expediency, of dollars and cents, which can be well left to the individual judgment of men. In politics, as well as in religion, a safe and wise maxim is unity in essentials, leave to differ as to non-essentials."

The subject is one that concerns every tax-payer. It is a proper matter for discussion. The people should have the fullest information as to where their money goes. The NEWS wants no gag-law. It thinks that what cannot stand and bear discussion ought not to receive our support.

While the matter should be discussed, let it be discussed fairly, impartially and coolly-without temper and without recrimination. Let us bear in mind the apostolic reminder "we be brethren," remembering that we shall need all our votes next year.

THE PROPER MONEY STANDARD. The Philadelphia Times publishes a

good article under this caption, which

The fact that the administration has systematically ignored the issue of the proper standard of money has rather promoted than hindered the discussion of the question both in this country and the Old World. If Mr. George Walker had been sent abroad to fulfill, in good faith, the directions of Congress on the subject of international unity in the use of gold and silver, the administration would not have been humiliated by the first announcement of the purpose of the German Empire to renew the circulation of silver, through Judge Kelley's memorable letter in the Times, giving Bismarck's views and intentions; and the Secretary of the Treasury would not have been compelled to apologize and explain to the public in regard to the utter failure of Mr. Walker's mission. Had Mr. Walker proceeded to the several European governments and sought their co-operation in the attainment of unity in the use of gold and silver as money, instead of loitering around and seeking an invitation to do just what Congress wanted him to invite others to do, it would not now be necessary for Secretary Sherman to give out that Judge Kelley's interview with Bismarck was erroneous. Walker's mission having signally failed because it was intended to have the whole purpose of Congress frustrated, it is now deemed important to degrade Judge Kelley's special report to this journal to a level with Walker's failure.

The question of the proper employment of gold and silver as money will be one of special interest in the deliberations of the Congress soon to meet. It is not now an issue of silver inflationists or of blind devotion to the dollar of our fathers, nor is it in any degree, a lingering branch of the flat money heresy. On the contrary, it's a question of great national and international moment, and it is to-day enlisting the ablest financiers of the Old World in its discussion. Considering the very general attention attracted to the issue involving a definite adjustment of the cases of gold and silver in the commerce of all civilized nations, it is not wonderful hat the naturally conservative Bulon Club of New York last evening gave patient audience to Judge Kelly, as he responded to their special invita-

tion to give his views on Bi-metallism. The fact that such an organization as this sees the world move should not be lost on the administration and the Congress with which the disposition of the question rests. The abstract of Judge Kelley's address, given in our New York dispatch, presents the main historical land-marks on the subject, and the true philosophy of statesmanship is visible throughout in his treatment of his theme. The thoughtless who dismiss the issue of the proper money standard as settled by the success of resumption and the end of the flat money craze, simply expose their ignorance of the one question that has been made most vital by the resumption of specie payments. All such who desire to know the truth, will read the re-port of Judge Kelly's address before the Bullion Club with both interest and

PERSON. the Superior Court of Pers n, was held last week by His Honor Judge McKoy, who is deservedly very popular with the people of this county. He was on hand to open the court on Monday, and patiently heard causes until Thursday about noon, when he took his departure eu route for Caswell. On bidding adjeu to the officers of the court. he said it was his last visit to Person as a judge, inasmuch as the regular course of rulings would not bring him and that under no circumstances would he be a can lidate for re election; prefering private to public life. Whatever may be the future of the judge, he may rest assured that the best wishes and most profound respect of the officers of the court and the people at large will follow him. No man in the State could secure a larger vote for Judge than A. A. McKoy. He would be voted

for if a candidate, almost by acclama-tion, without regard to party. But the Judge was no stranger to us, this being the third court which he has held in Person, and the more we see of him the better we like him. Now if the judge should happen to see this, let him resassured that it is no false or over. wrought adulation, "but in sincerity and truth and for the causes set fortht" Well we had only ninety-two cases on the State docket this term, against one hundred and twenty-eight last term and but few convictions, and none for and but few convictions, and none for as grave an offence as .arceny. One unfortunate young man was convicted at the spring term of the crime of larceny, and jndgment suspended upon the pay-ment of cost; but unfortunately the poor fellow could not pay the cost and

receive his sentence of five years at hard labor in the State Penitentiary. And what is still worse, this is his second term in that institution. The poor fellow must have the cleptomania. The roads of the county have greatly improved under the new road law. So

generally is good. The tobacco crop I think is quite large, and the quality unusually good. Persons has been taking the premium

But our great need is a railroad. For want of this the county has been greatly depleted during the last ten years of her business men. Look at Durham: Blackwell, Day, Reams, Walker, Driver, Howerton, and a host of others, all person men and pushing business forward with amazing energy. In fact, Person has almost made Durham what it is. And still our good citizens are leaving. Some have already left this fall, and others are preparing to leave. All for the want of railroad facilities. Half the land in the county had better be mortgaged to raise money to build a railroad than for things to go on at the present rate. Still the price of our lands is advancing. During the last five years the price, I would say, has nearly doubled. This arises from the fact that it is an ascertained fact that the lands of Person are as well adapted to the growth of fine tobacco as are the lands of any county in the State; and our farmers have gotten the care of making fine tobacco, and are making money and investing in land. But we have no outlet for the trading man except by wagon twenty-five miles from the county site to the nearest railroad station. But in spite of our adverse situation, improvements are going on on. Roxboro is steadily improving, and our farmers are building more

to remain in the county. Mrs. Moon, the great lady evangalist, is holding meeting in Leesburk, situated in the eastern part of Caswell county, and which was the county site of Caswell before old Caswell was cut in twain in 1791 to make Person, While her labors at the old county site are attended, as I hear, with much success, still the result will likely fall very far short of that of the meetings which she held at Roxbo o in August. It may be that there is not as much material at

Leesburg as there was at Roxboro. During the long drought of summer and fall, the steam mill of W. H. Winstead, at Roxboro has been crowned with custom day and night. People have come from 15 to 20 miles to get grinding, and have often been compelled to wait 21 hours before they could get discharged. So urgent has been the demand for bread, that in a few instances the mill has been kept running on Sunday. There has been no such drought, affecting the streams as this has, for years.

FROM THE HON. WM. TAYLOR, STATE SENATOR OF MASSACHUSETTS. Messrs, A EEKS & Potter: Gentlemen,—
To say that I am grateful, is only a poor expression of my feelings, but it is the best word I can use, for I feel it mevery sease of the word. I have been a great sufferer with skin diseases for the last twelve (12) years. My head and face being covered with sores, I could not rest with the ourring heat and itching of the parts affected, and was confined to my house for weeks at a time. My disease has been called rezema, of a most aggravated type, by many physicians, but I doubt If ever faily understood by any of them. It was more like a combination of several skin humors. I have spent much money seeking a cure, and in 1867 I went to Europe, and consulted some of the b st physicians in London. I received temporary relief only, for in the spring it would break out again as bad as ever. When I came back to nosten, I was told by many friends that Dr. — (whose reputation for the cure of those diseases was of the mignest order) could cure me. I waited on the doctor; ne prescribed for me. I followed his advice for six months, and I can salely say, without any improvement. I tried other physicans and among them Dr. —, or East Boston, and Dr. —, or felty proper, but all to no purpose. They did me no good; their remedies were so ineffectual that at no timedid I feel that a cure would result from them.

I have swallowed five hundred arsente Messrs, AEEKS & POTTER: Gentlemen,result from them. I have swallowed five hundred arsenic pills, 5.2 grain, and taken outtle after out-tle of internal remedies, besides all the ex-ternal applications I have used, but the eft was the same. I became satisfied that I could not be cured, but might be kept from getting worse.

Now, about turee months ago, Mr. Meehan, ago attenan well known to Boston people, called my attention to your curi-

people, called my attention to your curi-cura, and promised wonderful results if I would only make a trial. He told me of his own experience with it, and so persevered on me that I went with him to a drug store and bought two large boxes of Curiochka, and some Curicura Soap, and commenced to use it according to the directions. There was so much humor lodged within the stan-that as soon as I commenced the use of Cu-Ticura it came to the surface and lestered, until vast quantities had come out and greatly intensified my sufferings for about two weeks. But I did not mind this, as I felt that I was going to get rid of the humor when I saw it coming to the surface in such large quantities. After the first two or three weeks use of this remedy, I was greatthree weeks use of this remedy, I was greatly encouraged by a gradual tessening of the inflammation of a number of painfu sores. I carefully, fattafully, and energially followed the directions to the letter, feeling lowed the directions to the letter, feeling each week nearer a cure, until at the present moment, after three months' use of CUTICUE, and tweive years of as constant suffering as was ever endured, I can say that I am cured, and pronounce my case the most remarkable on record. I have been so elated with my success that I have stopped men on the street who were afflicted, and told them to get the CUTICUEA and it would cure them. This is why I am so grateful to you, for I believe it to be the best and greatest discovery of the age, and that it will cure all who are suffering with these diseases. I may add that I took no internal medicine but the CUTICUEA RESOLVENT.

Rosadalis

THE Gu an analysis and all issues, white Swelling Gout, Gottre, Consumption, Bronchitis, Nervous Debility and all diseases arising from an impure condition of the Blood.

The merits of this valuable preparation are so well known that a passing notice is but necessary to remind the readers of this journal of the necessity of always having a bottle of this med cine among their stock of family necessities.

Certificates can be presented from many leading Physicians Minister, and heads of families throughout the South, endorsing in the highest terms The Fluid Extract of Rosadalis.

Dr. R. WILLIAM CARR, of Baltimore says he has used it in cases of Scrofula and other diseases with much satisfaction.

Dr. 1. C. Pugh, of Baltimore, recommends it to all persons suffering with diseased Blood, saying it is superior to any preparation he has ever used

REV DABNEY BALL, of the Bal Imore M. E. Conference south, says he is so much benefited by its use that he cheerfully recommends it to all his criends and acqualntances.

CRAVEN & Co., Druggists, of Gordonsville, Va., says it never has failed to give satisfaction.

Samuel G. McFadden, of Murreesboro, Tenne-see, says it cured him of Rheumatism when all else failed.

Rosadalis is not a secret quack preparation, its ingredien s are published on every package, show it to your Physician and he will tell you it is composed of the strongest alteratives that ex st, and is an excellent blood purifier. Did our space admit we could give you testimonials from every state in the South and from persons known to every man, woman and child either personally or by reputation, 'sadalis is sold by all Druggists.

-Mr. Wayne Alcott was feeling good last night. He had just completed arrangements for the sale of some of his machinery in a certain county in this State, the bills for which run up into the thousands. Mr. Allcott is a live business man and deservedly has the run of cussom in his lin for this city. He has all kinds of machinery which he can and does sell as cheap as any Northern drummer can deliver the same goods here. Go see Allcott when you want machinery. That's our advice.

The Midgets.

We are to have the smallest people in the world with us next week-the Midgets. They appear from the 24th (to-morrow night) till the 29th, Saturday. The Danville Post gives a pretty complete notice of them, which we publish. Here is what they say:

The wonderful little human beings

known as the Midgets, gave an exhibition yesterday afternoon and again in the evening at Masonie Hall. To say that they awakened the most curious interest of all v ho saw them, but poor-

ly expresses the fact.
The crowd was coming in and going out all the time, and the talk of the day was the Midgets. They are very intelligent, and General Mite, the smaller of the two, has all the airs and bearings of men of vears and intelligence.

It is curious to note his poise and see the self-possession of manner, and the singular manliness of the Lilliputian that can easily sit in the broad palm of a man's hand. Major Atom says he is not a German, but is a "Dutch boy," and is the essence of a jolly Dutchman, admitting even to the national panchant for saur-krout and lager beer. He is full of life, and is the opposite of Gen. Mite, whose dignity and composure would set gracefully on a man of fuller

ears and larger stature. It was interesting to see the Mites walking around the hall in company with a fair haired little girl, daughter of one of our well known citizens, and to observe that, while the little girl was only about four summers, the Midgets seemed to be very little babes indeed by her side.

The little folks in the audience seemed to be delighted with the Midgets, and their pleased looks were as much a matter of interest as the show itself. Bring all the children out, and come ye grown folks, and see the smallest specimens of humanity in existence at

the exhibition to-day. HOTEL ARRIVALS.

What Physicians at Home and Abroad Think of the Seven Springs Iron and Alum Mass.

In the treatment of Dyspepsia, Cblorosis, Anæmia, Nervous and Muscular Debility, Nervous and Sick Headache, Dysmenorrhœa, Menorrhagia, Amenorrhœa, diseases of the Kidneys and Blad-der and such like organic or functional disturbances, I know of no remedy upon which I can rely with more cer-"Seven Springs Mass."

W. F. BARR, M. D.,
Abingdon, Va.

I have found no one single remedy to vield such satisfactory results as the "Seven Springs Mass." In the treatment of Dyspepsia, Chronic Diarrheea, Anamia, Chlorosis, and for Chronic Eczema, I find it invaluable, associated with appropriate topical treatment. GEO. T. HARRISON, M. D., New York City.

From my experience with the "Iron and Alum Mass," I believe it will prove the best medicine we have in use, for G. M. D. PATTERSON, M. D.,

Eaglewood, Texas. For Dyspepsia, Ulcerations of the Throat, Inflammation of the Neck of the Bladder, Leucorrhœa, etc., the "Seven Springs Mass" seems to act with almost specific effect.

E. O. GRIGSBY, DeView, Ark.

We could extend this list into the thousands with such testimonials from physicians from every State in the Union, but these are sufficient to indicate its application. The reputation of the remedy is too widely known to waste words upon its character. In ordering from drug zists always mention Seven Springs Mass. Price \$1 per package or six for \$5, sent by mail, postpaid. LANDRUM & LITCHFIELD, Abingdon, Va.

Political Issues.

Kearney's advice to all parties is to "pool their issues." We think a good deal as he does, that we should bury the dead issues of the past. As a healing compound for all issues, sores, wounds &c., there is nothing equal to Henry's Carbolic Salve. Beware of counter-

Practical Economy.

Before Patapsco Baking Powder was patented and placed on the market consumers had to pay 50 cents per pound for the old rut powders. You can now buy Patapsco for about onehalf that amount and get a better article. This accounts for the popularity of Patapsco.

Many cases of Dyspepsia within my knowledge have been cured by it. Cramps, Colies, Headaches and all sorts of pains from indigestion yield promptly to it. The cures of this sort are innumerable. Rev. R. L. Dabney, LL. D.,

Rev. B. F. Woodward P. E., Na. Conf About twelve years 1 suffered from Dys pepsia. Falling in with this remedy, I gave it a fair trial. After its use I could eat any-thing with impunity. I am sure I am in-debted to this medicine for what of aealth and physical comfort I have had for the last sixteen years. I have known many since to be relieved by its use.

J. D. Eggleston, M. D., Va.
It is a highly valuable remedy, and is more xten-sively used than any single article in a whole list of medicines, so far as I observed in my practice, for all the complaints in families from indigestion. I use it and recommend it.
